EXPERIENCE

MM Tech Academy Website [mmacademy.in]

May 2026 – Present

Freelance

Coimbatore

- Developed and delivered a freelance project for MM Tech Academy, meeting client requirements and project objectives within the specified timeline
- Designed, implemented, and tested application features while ensuring code quality, performance, and reliability.
- Collaborated with stakeholders to gather requirements, resolve issues, and successfully deploy the final solution.

PROJECTS

Traveloop | [[Live](https://traveloop-rosy-nu.vercel.app)] traveloop-rosy-nu.vercel.app

May 2026

- Developed a web-based travel planning and management platform for creating personalized multi-city itineraries.
- Implemented features for destination exploration, activity management, budget tracking, and trip organization.
- Visualized GitHub data to show collaboration
- Designed an interactive and user-friendly system that enables itinerary visualization, trip sharing, and efficient travel planning.

Streax | [[Live Not Available](#)]

Feb 2026

- Developed Streax, a gamified attendance and discipline tracking platform that motivates students through streaks, achievements, leaderboards, and reward-based engagement.
- Designed an inter-departmental ranking system that converts individual attendance consistency into a departmental performance index, fostering healthy competition and collective accountability.
- Implemented analytics and recognition features including attendance insights, digital hall of fame, and reward mechanisms to improve student participation and institutional engagement.
- Used Celery and Redis for asynchronous tasks

Oorariyan | [[Live](https://oorariyan.vercel.app)] oorariyan.vercel.app

Jan 2026

- Developed Tamil Nadu 360, an AI-powered immersive virtual tourism platform that transforms static 360° heritage tours into interactive experiences using a Generative AI royal guide.
- Built a real-time multilingual AI assistant (Raja Raja Chola) capable of answering user queries through voice and text, making Tamil Nadu's history engaging and accessible.
- Implemented 360° WebVR experiences, voice navigation, and gamification features such as hidden artifact hunts to improve user engagement and accessibility.
- Collaborated with Minecraft server administrators to suggest features and get feedback about the plugin

Mozhiyaam | [[Live](https://mozhiyaam.vercel.app)] mozhiyaam.vercel.app

May 2025

- Developed Mozhiyam, a Tamil-focused digital library platform enabling users to publish and share poems, stories, and grammar insights in a community-driven environment.
- Integrated advanced language tools including a Tamil dictionary (Tamil-English meanings), translation system, and text summarization to enhance accessibility and usability of Tamil content.
- Designed a one-stop solution for Tamil literature and language processing, improving content discovery, learning, and preservation of regional language resources.
